

IN THE ABSTRACT

Please replace the Abstract with the following Abstract:

A razor assembly includes a razor head having at least one blade, and a shaving aid delivery system ~~associated with~~ disposed within the razor head. The shaving aid delivery system includes ~~a framework with~~ a supply of at least one shaving aid fluid, a microfluidic circuit for communicating the shaving aid fluid from the supply to a plurality of outlet ports along a surface of the ~~framework~~ shaving aid delivery system, and a transport system for driving the shaving aid fluid from the supply through the microfluidic circuit.
